

International Andalusian and Lusitano Horse Association

Stallion Report

Year:

All breedings of IALHA registered stallions must be reported to the IALHA registry prior to registration of offspring. Stallion owners are responsible for keeping records and submitting a report annually by January 1st for all breedings of the preceding year. If the stallion is leased, include a copy of the lease agreement with this form. The agreement should specify who will complete the Stallion Report, while the stallion owner is responsible for ensuring records are maintained and submitted to the IALHA Registry. Complete all fields. Type or write legibly. If mare is not registered with IALHA, enter "not applicable". If another breed, indicate which.
